

Basic Sewing Supplies

Most classes require Basic Sewing Supplies (BSS). Here is a list with the minimum requirements that you can use as the basis for your own packing list. Classes may have an additional downloadable Student Requirement list. Student Requirements are available on our website with each class description. Feel free to ask if you have any queries. Before packing your supplies, mark each item with your initials or name. Remember to mark your sewing machine, cords, pedal etc. Items get mixed up or left behind easily.
